Pursuant to 37 C.F.R. § 1.102(d), Applicant hereby petitions the Commissioner to make the subject application special so that it may be taken out of turn for immediate action. In support thereof, Applicant provides the following:

1. Mr. Bill L. Davis is a co-inventor of "Combined Lithographic/Flexographic Printing Apparatus and Process" described in U.S. Patent No. 5,630,363.
2. Mr. Davis has reviewed the claims provided in the Preliminary Amendment enclosed herewith. (See Affidavit of Bill L. Davis, ¶3)
3. Mr. Davis has compared the claims to the characteristics of certain printing presses being offered in the United States. (See Affidavit of Bill L. Davis, ¶4)
4. As a result of his review, Mr. Davis determined that there is at least one infringing product actually being offered for sale in the United States. (See Affidavit of Bill L. Davis, ¶5)
5. A rigid comparison of at least one infringing product with the claims of the application has been made, and in Mr. Davis' opinion, at least one of the claims is unquestionably infringed. (See Affidavit of Bill L. Davis, ¶6)
